

Online Session on Kitchen Gardens

Organised by Partners in Prosperity

Addressed by Dr. SC Bhardwaj ,

(Rudarpur based Seed Entrepreneur with Corporate background)

On 14th May, 2020 through Zoom Conferencing app

Agenda :

- 1) How to establish a good kitchen garden.
- 2) What are the basic requirements of a kitchen garden ?
- 3) Seasonal production requirements and activities.
- 4) Benefits of a good kitchen garden.

Total Participants : 30

- Dr K R Viswanathan (Chairperson , PnP BOD's)
- Mr Mustak Khan (Head , Rural Economy)
- COLLIBRI & SUNSAI beneficiaries,
- Farmers from Ramnagar, Kotabag and Betalghat blocks ,
- PnP project Staff.

Core Discussion :-

Dr. Bhardwaj explained in detail to the participants how nurseries are to be raised and cared for, for a kitchen garden. He focused on the right techniques for raising nurseries so that the saplings would grow well in the kitchen gardens. He also spoke about seed treatment in detail. He explained various methods such as Trichoderma.

The participants asked various questions about the type of organic pesticide that they can use to protect their vegetables against pests. Some of them also asked questions about the best vegetables to grow in the coming monsoon months. Tomato, cucumber, okra, cauliflower and beans are some of the vegetables that they were advised to grow in the coming months.

Outcome :-

- 1) Participants got a good insight on developing kitchen garden on organic lines.
- 2) Dr. Bhardwaj's contact number shared in all whatsapp groups of different project beneficiaries so that their queries could be addressed as and when required.
- 3) Dr. Bhardwaj assured to be available as a resource person anywhere, anytime.
